2024-2025

## Back to School

School year 2024-25 has begun and we are so very Grateful to our "Beloved Mighty I AM Presence" and Beloved Saint Germain for this opportunity to be here at Beloved Saint Germain's "I AM" School. We are so Grateful for all of the support His Majesty's School has received through your Decrees! May they be amplified back to everyone a Billionfold!

Currently we have two students at the School attending full time, Andrew Delgado in 2nd grade and Mika Garcia in 4th grade; plus two students at the School attending

in our new Lady Donna Immersion Program, Estel.la Trepas 13 years old, and Berta Trepas 15 years old. Berta and Estel.la join us from Palamos, Spain. The Lady Donna Immersion Program is a three-month program of spiritual and academic study focusing on incorporating the "I AM" Teachings throughout the curriculum. We are so Grateful for all of our students and for being able to work with such precious Life Streams.

Joining the "I AM" School Family this year as a volunteer, with her many years of teaching experience, is Miss Elaine Smith. She

works with the students in their reading and English, and plays handbells. We are also happy to have Carmen Aranda, Estel.la and Berta's mom, with us in the Residence and helping to play handbells. Welcome to the "I AM" School!

This year Faculty and Staff have chosen Beloved Lord Maha Chohan and Beloved Great Divine Director to be our Masters of the year. We accept Their Luminous Presence around us every day and the special qualities They bestow. We Love You, We Bless You, and We Thank You for Your Presence with us, forever!

# “I AM” School Trip to “I AM” Election Class *Los Angeles, California*

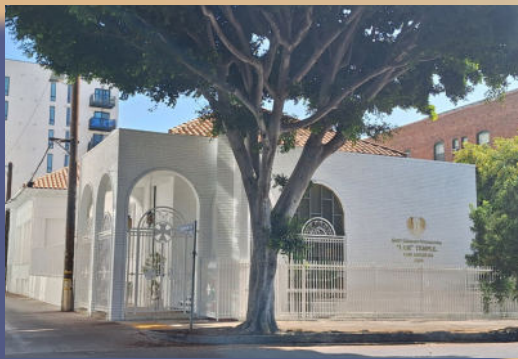

This year we were very fortunate and thrilled to be invited to the Election Class in L.A. After checking into the beautiful Millennium Biltmore Hotel, we enjoyed exploring the city; and in the afternoon we were given a tour of the “I AM” Temple on Hope Street. The Temple is magnificent, and we stood in awe of everything that Maria and everyone else involved had accomplished.

when we walked up the aisle with a hundred smiling faces looking expectantly at us, we picked up our bells and the Angels played through us!

like they came straight out of one of the Masters’ retreats, and listening to the Class leaders who all gave powerful, inspiring, transcendent Classes, we felt that at any moment Beloved Daddy, who stood on that very platform, or our Beloved Saint Germain would step through the atmosphere at any moment.

The students of the “I AM” School were given the wonderful opportunity of bringing flowers up to the platform. Andrew, our youngest student, brought up a Sword of Blue Flame encircled with blue flowers and lights dedicated to the Freedom of all Youthlets and Incoming Children. Berta and Estel.la, each brought up an arrangement of pink, white and blue flowers for the Ascension of the Younger Generation of America and the World.

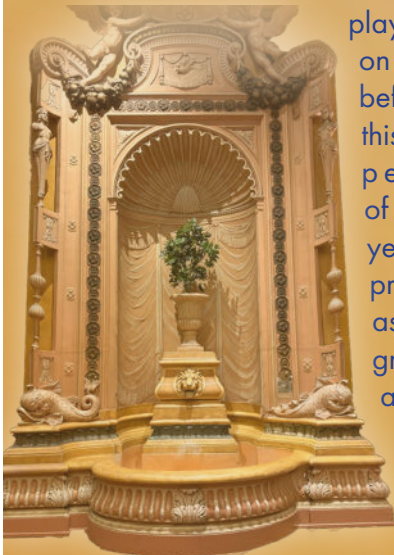

Legions of Angels were in attendance in these Classes and we decree that They sweep through our Beloved America. We are so Grateful to Beloved Maria Porter for making this trip possible for the “I AM” School!

We were invited to play the handbells on Friday evening before Class. As this was our first performance of the school year, with little practice together as a complete group, we were a little nervous. However,

Standing in Class, in that beautifully refurbished Sanctuary, the light filtering through the new stained glass windows, the thousands of crystals on the chandeliers looking

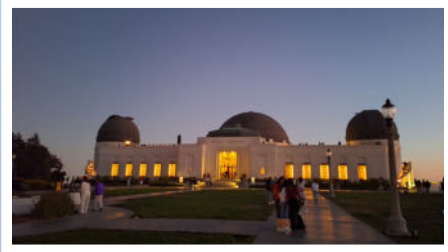

*The day after our Trip to Los Angeles, we had a double rainbow manifestation over our School. We accepted it as a blessing obtained from the God-Victorious “I AM” Election Class.*

# Outings in Los Angeles

**D**uring our trip to Los Angeles we were very fortunate to experience some fun and life-inspiring moments while visiting

a few special locations. Sunday evening after the banquet, we went to the Griffith Observatory on top of a hill overlooking the city. We were able to faintly see the A3 Comet in the sky, the famous Hollywood sign from a

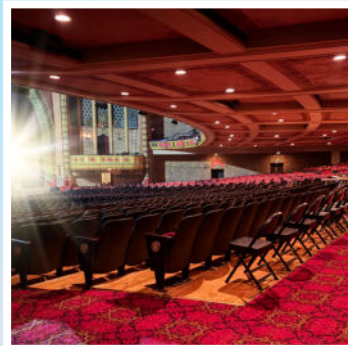

distance, and almost the entire valley and city lights at night. The students enjoyed looking at a giant swinging

pendulum that showed the rotation of the Earth, learning about lasers and telescopes, seeing a big Tesla Coil in operation, and touching real pieces of meteorites. There was a wonderful exhibit about space and the planets which included a giant model of the planets to scale. The students thought it was fun to see how much they would weigh on each planet.

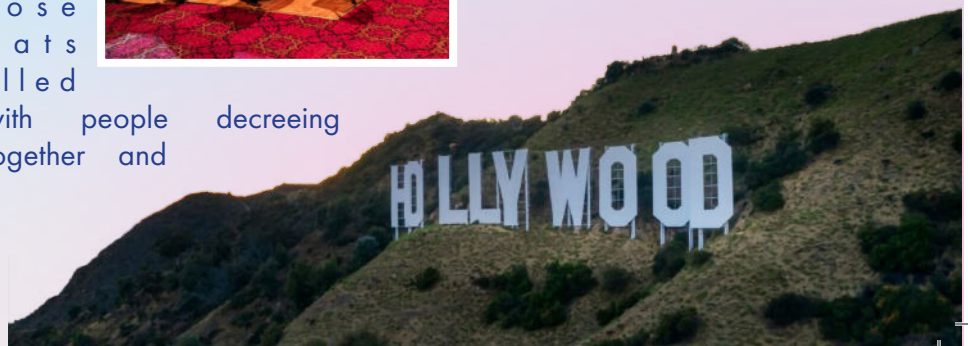

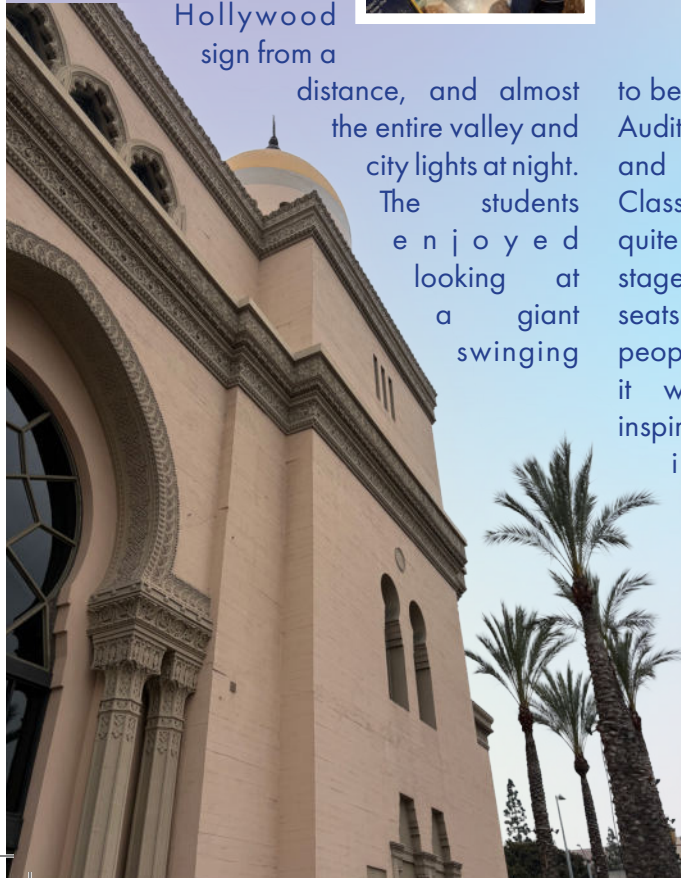

A big highlight of the trip was to be able to visit and tour the Shrine Auditorium where our Beloved Daddy and Mama gave some of the first Classes. The Shrine Auditorium has quite a large stage and seats 6,300 people, and it was awe inspiring to imagine all of those seats filled with people decreeing together and

the energy that was released. It was truly a beautiful moment to be in that space and felt like a once-in-a-lifetime opportunity.

After the Shrine Auditorium, we drove to the Ronald Reagan Presidential Library and spent the afternoon reading and learning about Ronald Reagan's life and presidency. We got to see old photos and videos, a replica of the oval office, tour through Air Force One and the Marine One helicopter, and even see a piece of the Berlin Wall. It was truly touching to read his famous quotes and hear some of his speeches. He sounded like he knew some of the Laws of Life. It was easy to see why the country loved him so much. He was inspirational and reaffirmed hope for America and for the goodness of mankind. What an amazing president!

## Weekly Field Trips

One of the highlights of every week are the field trips we take on Friday afternoons to explore and experience the wonderful outdoors in this beautiful locality.

We have made two excursions up Mount Shasta. The first one we started at Lower Panther Meadows, where we stopped to read about how Beloved Daddy met the panther and overcame fear, and then we hiked up to Upper Panther Meadows. The next week, we decided to start at the Upper Panther Meadows and just explore the beautiful

meadow and spring, while also reading about Beloved Daddy's unforgettable encounter with David Lloyd. As we drank water from our own cups, we visualized our water was that same Liquid Light that was in the cup that Beloved Daddy gave to Beloved David Lloyd to drink. Reading *Unveiled Mysteries* in the actual locality in which it took place made these experiences so much more impactful and meaningful.

Another hidden gem in Mount Shasta is the local Museum, where we learned that this city has had no less than four

name changes! We enjoyed viewing the extensive pictures of the lenticular cloud formations over the mountain, and played with the many interactive puzzles and games illustrating the rich ecosystem we are privileged to live in.

Taking advantage of the wonderfully mild fall weather, one Friday we took the kayaks down to the lake, and enjoyed a picnic lunch with a gorgeous view of the mountain. We are so blessed to live in such a beautiful, inspiring locality!
